

Fyfield Road Flats

- Most of the College's buildings along Fyfield Road (bordering the main College site) combine SCR studies with student accommodation – these are on separate floors or have separate entrances
- Typically 3-5 bedrooms will be arranged into a flat, with its own entrance and shared facilities

Bedrooms range in size, but many are very large

Some flats are at basement level, but are still very light

All rooms have access to shared kitchen and bathroom facilities
